

# STORM-WORK

## STORM-WORK: Marine Height Safety Solution

Leveraging 25 years of marine safety expertise, Reflex Marine introduces STORM-WORK, an innovative work basket addressing offshore risks, including crushing, trapping, snagging, lateral impacts, and immersion.

### Features:

- **Over-Head Protection:** Safeguard against dropped objects.
- **Weld-Free Critical Load Path:** Minimal components with high redundancy.
- **Advanced Protection:** Floating and self-righting in all load configurations.
- **Anti-Snagging Lifting Profiles:** Designed to reduce snagging risk, with soft fenders for lateral impact protection.
- **Shock-Absorbing Feet:** Soft landing and reduced impact for added worker safety.
- **Safe Work Zone:** Buoyancy panels create a stand-off distance,

preventing trapping and crushing injuries.

## About STORM-WORK:

With 25 years of marine safety expertise, Reflex Marine introduces STORM-WORK, an innovative work basket addressing offshore risks like crushing, trapping, snagging, lateral impacts, and immersion.

## Benefits of STORM-WORK:

- **Safe Working Zone:** Protects workers from injuries in a secure workspace.
- **Anti-Snagging Features:** Reduces incidents like dangerous hang-ups on asset structures.
- **Soft Touch and Soft Landing:** Guards workers and assets from hard landings or collisions.
- **Compact and Lightweight Design:** Facilitates easy maneuvering and storage.
- **Simple Maintenance:** Easily replaceable components with a long product lifespan.
- **Immersion Protection:** In case of water immersion, flotation and self-righting ensure workers reach a safe position.

STORM-WORK is your ergonomic solution for safe, efficient tasks such as inspections, painting, and repairs over water. Elevate your marine height safety standards with STORM-WORK.
