

OSHA MAN Basket

OSHA MAN Basket: Lifting you in the air

When it comes to working at heights, safety is non-negotiable. That's why we proudly present Billy Pugh Company's OSHA Man Baskets (OMB), meticulously engineered to ensure the safety and job satisfaction of your personnel. Whether you're working via crane or forklift, our baskets are your ultimate assurance of security.

Safety-Driven Design

The OMBs are crafted to meet stringent OSHA standards, utilizing heavy-duty steel construction and the exceptional quality synonymous with the Billy Pugh Company. Each basket is a testament to our commitment to keeping your personnel safe in elevated work environments.

Key Features:

- **Overhead Protection:** Crane baskets provide essential overhead protection, shielding workers from potential hazards.
- **Shock Absorption:** The OMB-1 is equipped with shock-absorbing feet, further enhancing safety during use.
- **Ample Space:** With room for both workers and tools, our baskets ensure efficiency and convenience on the job.
- **Safety Guard Rail:** A sturdy safety guard rail surrounds the basket, offering an additional layer of protection for personnel.
- **Access Gate:** Featuring an access gate with an automatic latch that opens inwardly, in accordance with European Standards NEN-EN 14502-1, ensuring secure entry and exit for personnel.
- **Diamond Tread Plate Floor:** The diamond tread plate floor provides a non-slip surface, enhancing stability for workers.
- **Variety of Sizes:** Our crane baskets are available in sizes 1, 2, and 4, catering to diverse operational needs. Additionally, we offer a forklift basket in size 2.

- **SWL and Testing:** All OMB models boast a Safe Working Load (SWL) of 1000 lbs., with certain models undergoing rigorous testing at 125% of the SWL.
- **Versatile Applications:** From offshore rigs to construction sites, our OMBs find utility in a wide array of applications, ensuring safety and efficiency wherever they're deployed.
