

Crew Change Bag

Crew Change Bag: Seamless Crew Changes

Experience hassle-free luggage transport during crew changes with our innovative Crew Change Bag (CCB). Engineered for safe lifting and secure transportation of luggage, this lifting device ensures smooth transitions for maritime personnel.

Crafted to withstand maritime conditions, the Crew Change Bag is meticulously designed to be water-resistant, shielding luggage from tropical rains and saltwater sprays during boat transits. Constructed from durable no-tear vinyl, this bag offers UV and water resistance, guaranteeing long-lasting protection.

Equipped with 2-inch, 2-ply nylon soft slings configured in a basket design, the Crew Change Bag provides ample safety margin and is easily replaceable if damaged. Its compact and lightweight build allows for effortless handling by a single person, leaving a hand free for secure navigation along handrails.
