

45 Gallon Overpack

Elevate Safety Standards with Our 45 Gallon Overpack Drum Solution

Designed to meet your shipping needs for both regulated and non-regulated liquid products. Crafted using blow-molded polyethylene, these drums are the pinnacle choice for diverse industrial applications across various production sectors. Constructed from high-density polyethylene and boasting exceptionally high molecular weight.

Key Features:

- 45 Gallon / 170 Liter Capacity
- Blow-molded into a single piece of high-density polyethylene
- A special high-molecular-weight formulation
- Solid and Rigid
- Will not rust or peel

- Easy Lifting due to extra large compression-molded ring
