

FitzWright A/M-24 Convertible Inflatable

Introducing the FitzWright A/M-24 Convertible Inflatable PFD, a remarkable addition to your safety gear. This Personal Flotation Device (PFD) offers features that set it apart from other inflatable vests, ensuring your safety and peace of mind during water activities.

Key Features:

- **Approval:** Transport Canada has approved this PFD, assuring you of its high-quality construction and compliance with safety standards.
- **Convertible Operation:** The unique feature of the A/M-24 is its ability to operate as both Manual and Automatic Inflatable (Model A/M-24). This convertible design provides users with the flexibility to choose their preferred mode of operation, offering more control and peace of mind.
- **Load Distribution:** The deep-v back panel and lightweight design of this PFD effectively distribute the load off of the neck and across the hips, ensuring comfort and reducing strain.

- **Comfort and Lightweight Design:** You'll forget you're wearing it until you need it. This PFD boasts a comfortable, lightweight, and low-profile design that won't hinder your mobility during water activities.
- **Soft Neoprene Neckline:** The soft neoprene neckline ensures all-day comfort, preventing chafing and discomfort during use.
- **Enhanced Visibility:** Reflective piping on the PFD enhances visibility, ensuring that you remain easily identifiable in various conditions.
- **Durable Construction:** The PFD is constructed from durable fabric that resists tears and punctures, ensuring it can withstand the rigors of outdoor adventures.
- **Age and Weight Requirements:** Designed for persons 16 years of age and older, and those over 80 lbs., this PFD is suitable for a wide range of users. However, it is not recommended for non-swimmers or weak swimmers.
- **Minimum Buoyancy:** When inflated, the PFD provides a minimum buoyancy of 22.5 lbs., ensuring your safety in the water.

Choose the FitzWright A/M-24 Convertible Inflatable PFD for the ultimate combination of safety, comfort, and control during your water-based adventures. It's the PFD that you won't even notice you're wearing until you need it.
