

NON TSO 4 Person Lifteraft

The AVI Survival Products 4-Person liferaft is the lightest and most compact option in the Survival Products lineup. Designed for Part 91 operators and recreational boaters, this NON-TSO model offers peace of mind during emergencies at sea or in the air.

This raft features a single-tube inflatable design, made from durable urethane-coated nylon fabric. The seams are hot air welded, creating a strong, smooth, and seamless finish. Each raft includes essential survival tools such as a water ballast system for stability, a hand pump, bailing bucket, sea anchor, and exterior life-lines to support people in the water. A high-strength inflation/retaining line prevents drifting, and the CO₂ inflation system is housed in a corrosion-resistant aluminum cylinder. The raft is stored in a bright orange soft valise made of heavy-duty polyester with secure Velcro closures for a snug, compact pack.

Lightweight and space-saving, this raft is easy to stow in aircraft compartments or boats. It includes a 5-year warranty on parts and labor and is built to last with proper care.

Product Features

- Lightest and smallest package on the market today, designed for private pilots and pleasure boaters.

- Comprised of buoyancy tube, deck, life lines, CO2 inflation system, boarding handles, retaining line, hand pump, bailing bucket, sea anchor, and valise.
- Lightest weight and most compact - easy to carry, stow away, and maneuver in any emergency situation.
- Soft-pack valise made of practically indestructible nylon with secure Velcro closures.
- Constructed of heavy-duty FAA approved neoprene coated nylon fabric.
- Contains aluminum cylinders and valves eliminating corrosion and greatly reducing the weight.
- High-tech CO2 automatic inflation system.
- Optional survival kits are available to meet individual requirements.
- 5-year warranty on parts and labor, built to last a lifetime with proper care.
