

L160 Lifebuoy Light

Daniamant L160 Lifebuoy Lights: Unmatched Safety Compliance

Ensure maritime safety with confidence using Daniamant L160 Lifebuoy Lights, meticulously designed to meet the rigorous standards of SOLAS and the International Maritime Organization's Marine Equipment Directive (MED).

Key Features:

- **SOLAS/ MED Approved:** Our L160 Lifebuoy Lights adhere to the highest safety standards, holding approvals from both SOLAS and MED regulations. Trust in a product that meets and exceeds industry requirements.
- **NSN:** Recognized and assigned the NATO Stock Number (NSN): 6230-99-613-4941, affirming its compatibility and recognition within international maritime protocols.
- **Extended Life:** With a 5-year lifespan, the L160 ensures long-lasting reliability, providing consistent performance over an

extended period.

- **Maintenance-Free:** No maintenance or replacement batteries are required, streamlining operational efficiency and reducing the burden on your resources.
- **Compact Size:** The compact design ensures easy storage and handling, making it a practical and efficient addition to your safety equipment inventory.
- **Easy Fitting:** Simplify installation with the L160's user-friendly design, ensuring a hassle-free setup process for enhanced convenience.
- **Exceeding SOLAS Requirement:** The L160 boasts an impressive 76-meter drop height, surpassing the SOLAS requirement. This feature underscores its commitment to providing exceptional safety measures.
