

Foam Fender

Introducing TEKMARINE's TekGuard Foam Fenders – the pinnacle of vessel protection. Designed for naval, cruise, oil & gas, and container berths, these fenders offer:

- **High Absorption, Low Reaction:** Minimizes hull pressure, preventing damage.
- **Advanced Construction:** Filament-reinforced outer layer and closed-cell polyethylene foam core for durability.
- **Versatility:** Ideal for ship-to-ship or dockside use.
- **Weather-Resistant:** UV and ozone resistant, ensuring longevity.
- **Easy Maintenance:** Relocatable, repairable, and refurbishable; won't deflate or sink.
- **Customizable:** Standard black, with optional Navy grey and Orange; custom colors available.
- **Adaptable Deployment:** Can be used with a single pair of chains or a 4-point semi-fixed arrangement.

Upgrade to TekGuard – unmatched toughness, reliability, and simplicity in vessel protection.
