

Thermal Protective Aid

Product Page: Ascotherm Mk I - The Original Thermal Protection Aid

Elevate your safety at sea with the original Ascotherm Mk I Thermal Protection Aid (TPA) - one of the most trusted and successful TPAs available today. Designed to keep survivors warm, shielded from rain, wind, and cold in life rafts and lifeboats, the Ascotherm Mk I is a vital component for marine safety.

Key Features:

- **Survival in Extreme Conditions:** The Ascotherm Mk I is expertly designed to ensure the warmth and protection of survivors against the elements, including rain, wind, and cold in liferafts and lifeboats.
- **Impeccable Waterproofing:** All seams are taped and 100% waterproof, providing an effective barrier against moisture.
- **Body Heat Retention:** The inside part of the fabric is metallized

(laminated) to retain body heat, ensuring survivors stay warm even in challenging conditions.

- **Versatile Design:** Equipped with a web reinforcement, this TPA allows unconscious survivors to be carried while wearing it, enhancing their safety.
- **Easy Donning:** Featuring a long zip for effortless donning, the Ascotherm Mk I can even accommodate a mother and a small child.
- **Certifications and Compliance:** All Ascotherm TPAs are fully compliant with the Marine Equipment Directive of the European Community 96/98/EC and meet the stringent standards of SOLAS 74/83, IMO Res. MSC 48 (66), IMO Res. MSC 81 (70), and MCS 226(82).
- **Combination with Lifejacket:** It is essential to wear a certified lifejacket in conjunction with a Thermal Protective Aid (TPA) for comprehensive safety in emergency situations.
- **Vacuum-Packed for Optimal Storage:** Each Ascotherm Mk I TPA is vacuum-packed for protective storage, ensuring its functionality in emergencies.

Boost your maritime safety standards with the Ascotherm Mk I - The Original Thermal Protection Aid. Trusted by professionals, this TPA is designed to provide essential protection and warmth, even in the harshest conditions at sea.
