

Switlik HEED 3 Bottle & Accessories

The Helicopter Emergency Egress Device 3 (HEED 3) manufactured by Submersible Systems, Inc. is a compact, lightweight and reliable self contained breathing apparatus. The HEED 3 is designed to increase the survivability of military and commercial personnel in short-term out-of-air emergencies.

HEED 3 Includes unit with black cylinder and dial gauge pressure indicator. **Option with and without holster.**

Also available is a **Fill Station Refill Adapter** -- Fills unit from a high-pressure, breathing air quality Air Compressor.

New hose model available now! The HEED 3 is also available with a 20" hose for customers who prefer a separate regulator.

PRODUCT FEATURES

- Provides lifesaving air needed to egress from a downed aircraft or a rolled vehicle in the water.
- Ideal for all helicopters, fixed wing aircraft, float planes, watercraft and vehicles that operate around possible water emergencies.
- Protects personnel from inhaling dangerous and lethal toxic fumes from fire or smoke.
