

PLT® Rescue 150

PLT® Rescue 150: Swift and Robust Emergency Response

Enhance your emergency response capabilities with the PLT® Rescue 150, tailored for quick and effective operations on standby or rescue vessels equipped with the PLT® Launching Unit.

Key Features:

- **Immediate Response Ready:** The 3.2mm Nylon line is conveniently stored inside the projectile, ensuring a prompt launch in emergency situations, minimizing response time.
- **High Breaking Strength:** The included line boasts an impressive breaking strength of 2000N (204kg), providing robust reliability in critical rescue operations.

Air Cylinder Performance:

- **Flexible Pressure Options:** When filled to 300 bars (4350 psi), the air cylinder facilitates 6 maximum pressure launches. Charged to 200 bars (2900 psi), it ensures 4 maximum pressure launches, offering adaptability for diverse operational needs.

- **Convenient Filling Process:** For a 300-bar fill, connect the air cylinder to a standard scuba diving compressor with 5/8" threads according to DIN 477. For a 200-bar compressor, utilize Art. No. 1308 Yoke (DIN477) and claw adapter Art. No. 1315 for a seamless connection.

Extended Reach:

- With a dry and clean line, the projectile reaches an impressive 150 meters, providing an extended reach for effective emergency response.

Content:

- **Product ID: Art. No. 3000 - PLT® Rescue 150**
- 1 Art. No. 1005 PLT® Launching Unit
- 1 Art. No. 3303 Launching tube PLT® 150
- 2 Art. No. 3101 Projectile Rescue 150
- 1 Art. No. 7004 Projectile PLT® 150
- 1 Art. No. 6201 Linebox 5mm Floating Line
- 1 Art. No. 3200 Loading Device Projectile Rescue 150
- 1 USB stick and User Manual

Operations:

- **Offshore Industry Standby Vessels:** Widely used by standby vessels in the offshore industry for prompt emergency response.
- **FPSO to Tanker Messenger Line Transfer:** Facilitates the efficient transfer of messenger lines from Floating Production Storage Offloading (FPSO) vessels to tankers.

- **Rescue Operations by Organizations:** Proven effective in various rescue operations, contributing to the safety and success of rescue organizations.

The PLT® Rescue 150 stands as a reliable and versatile solution, ensuring readiness and effectiveness in critical maritime emergency situations.
