

Comet Smoke Signal, Orange 3 Minute TC SOLAS

Key Features:

- **SOLAS / Transport Canada Approved:** Our Smoke Signal Orange is a certified product, meeting the stringent safety standards of SOLAS (Safety of Life at Sea) and Transport Canada.
- **Compact and Easy to Handle:** The NEW Comet 3 Minute Smoke Signal Orange is designed to be compact and features a flat top for easy and safe handling during distress situations.
- **Effective Daytime Distress Signal:** This daytime distress signal provides highly visible position marking during rescue operations, ensuring swift and accurate response.
- **Wind Direction Indicator:** The smoke signal can also be used to indicate wind direction, aiding in navigation and coordination during emergencies.
- **3 Minutes of Dense Orange Smoke:** Produces dense orange smoke for a minimum of 3 minutes, enhancing visibility and signaling effectiveness.

Invest in Safety:

Choose the Smoke Signal Orange for a reliable distress signaling solution. With SOLAS and Transport Canada approvals, this compact and efficient smoke signal is designed to enhance visibility and safety during daytime emergencies at sea. Trust in its performance to communicate distress effectively and ensure a prompt response.
