

ECOBAG®

ECOBAG® Towable Tank - Efficient Temporary Oil Storage Solution

Discover the innovation of ECOBAG® - the towable, collapsible floating storage container designed for rapid deployment in temporary oil storage scenarios. ECOBAG® stands out with its exceptional strength, durability, and lightweight design, requiring minimal maintenance. Whether for shoreline operations, skimming operations, or emergency offloading, ECOBAG® ensures a reliable and efficient solution.

Key Features:

1. Rapid Deployment:

- Towable and collapsible, allowing for quick deployment in emergency situations.
- Ideal for temporary storage and towing of recovered oil.

2. Strength and Durability:

- Exceedingly strong and durable construction for reliable performance.

- Designed to withstand challenging conditions for versatile applications.

3. Low Maintenance:

- Requires minimal maintenance, ensuring efficiency and longevity.

4. Compact and Portable:

- Compact storage design for easy transportation to various locations.
- Manageable in operations, even in rough conditions.

Applications:

- **Shoreline Operations:** Efficient storage and towing of recovered oil near the shore.
- **Skimming Operations:** Ideal for temporary storage during oil skimming activities.
- **Emergency Offloading:** Quick deployment for emergency situations requiring temporary oil storage.

Product Specifications:

Product name	ECOBAG 5	ECOBAG 10	ECOBAG 20	ECOBAG 50
Maximum capacity [m3]	5	10	20	50
Length [m]	5	7,5	11	17,5
Width [m]	2	2	2,5	4
Max tow speed – empty [kts]	8			
Max tow speed – full [kts]	5			
Handles	Yes			
Reflective strips	Yes			
Navigation light holders	Yes
