

ECOspray Systems

Product Description

The ECOSPRAY is a compact and easy to operate portable diesel powered dispersant spray system.

Due to its simplified control, dispersant dilution can be varied between 0% and 100% with no interruption to spraying.

ECOSPRAY is designed to be deployed quickly with little setup required for rapid response to oil spills.

The ECOSPRAY dispersant spray system is supplied with a set of AFEDO™ Nozzles and hoses; and can be installed and operated from almost any “vessel of opportunity”.

ECOSPRAY has a simple control system for varying dispersant dilution level and a pressure gauge to ensure correct performance with AFEDO™ Nozzles.

ECOSPRAY is designed to be operated by one person with minimal training requirements.

Features

Single-cylinder, air cooled direct injection Yanmar diesel engine

Robust construction in marine grade aluminium

Fully enclosed moving components

Fully variable dispersant dilution from 0 - 100%

Supplied with a set of AFEDO™ Nozzles and hoses

Compact design

Benefits

Simple and intuitive to use

Easily stowed

“Vessel of opportunity” capable

Corrosion resistant

Adjustable application rates

ECOSPRAY comes with a 1 Year Warranty
