

Hammar Lifebuoy Release System Mk II

Hammar Lifebuoy Release System Mk II: Swift and Reliable Lifebuoy Deployment

Ensure the safety of your maritime operations with the Hammar Lifebuoy Release System Mk II. This complete package is designed for electric/water release, providing a seamless and efficient solution for swift lifebuoy deployment in critical situations.

Product Specifications:

1. Complete Package:

- This comprehensive kit includes all components necessary for electric/water release.
- Provides a seamless and efficient solution for lifebuoy deployment.

2. Release Depth:

- Operates effectively within a release depth range of 1.5 to 4 meters.
- Ensures adaptability to various maritime scenarios.

3. Weight:

- Weighing in at 18kg, the system strikes the perfect balance between robustness and manageability.

Included in the Kit:

1. GRP Holder:

- One GRP holder with a pre-installed metal holder for secure lifebuoy housing.

2. Electric Remote Unit (ERU):

- One Electric Remote Unit with a pre-installed cord on the metal holder.
- Features a 1.5m cable for flexibility in deployment.

3. Release Switch:

- One Release Switch in a protective box, suitable for wheel-house or bridge mounting.
- IP 66 class and colored silky grey.
- If mounted externally, it requires an outer protective enclosure.
- Maximum cable diameter: 12mm.

4. Connector Box:

- One connector box in marine-grade plastic, IP66 class, colored steel grey.
- Maximum cable diameter: 12mm.

5. Cable:

- 20 meters of grey cable (2 x 0.75 mm²), with an 8mm diameter.
- Other lengths available upon request.

6. Additional Security:

- One manual safety pin in stainless steel for additional security.

7. Pilot Line:

- One pilot line for convenient lifebuoy loading.

8. Documentation:

- Installation manual, user guide, and Lifebuoy Release System testing document for easy setup and operation.

Not Supplied in the Kit:

1. Lifebuoy:

- Compatible with any SOLAS lifebuoy, fitting securely into the GRP holder.

2. Installation Accessories:

- Mounting bolts and fittings for installation on-board.

3. Backup Battery:

- Not included in the kit but can be added for an additional layer of preparedness.

Rearming Kit HM-0630:

Ensure continuous readiness with the optional Rearming Kit HM-0630, available separately.

Invest in the Hammar Lifebuoy Release System Mk II for a reliable and efficient solution to enhance the safety of your maritime operations.
