

FitzWright Industrial Work PFD

The FitzWright Industrial Work PFD is your most fundamental and cost-effective flotation vest. Approved by Transport Canada/CCG, it offers reliable floatation for your safety during industrial and work-related water activities. Its broad sizing adjustment and soft foam make it an excellent choice for employers with a diverse work crew where floatation safety is paramount.

Key Features:

- **Approval:** This PFD is approved by Transport Canada/CCG, meeting stringent safety standards to ensure your protection during industrial and work-related water activities.
- **Lightweight and Durable:** The PFD features lightweight and durable flotation foam that provides buoyancy without hindering your mobility.
- **Robust Construction:** Crafted from 200 denier nylon, this PFD is built to withstand the demands of industrial use.

- **Secure Belts:** Two 1" encircling belts with a 1" chest strap ensure a secure and comfortable fit, allowing you to focus on your work without worrying about safety.
- **High Visibility:** Retroreflective material on both the front and back of the PFD enhances visibility, making you easily identifiable even in low-light conditions.
- **Durability:** Vinyl piping around the arm openings adds to the PFD's durability, ensuring that it can endure the rigors of industrial work.
- **Size Range:** Designed for adult individuals weighing 90lbs or over, this PFD offers a size range from 30" to 52", making it suitable for a wide range of users.

Choose the FitzWright Industrial Work PFD for a reliable and cost-effective solution that prioritizes your safety during industrial and work-related water activities. With its broad sizing adjustment and durable construction, it's the perfect choice for employers looking to provide essential floatation safety to their work crew.
