

3" x 4' Universal Only Sorbent Sock

The socks feature a tough *spun-bond* outer sleeve that has a durable *heat sealed seam* running its entire length. This tube is then filled with a *super absorbent foam core* that is *made from 100% post industrial material*. The super absorbent core is secured into the sleeve at each end with a durable metal clip.

The spun-bond outer sleeve makes these socks very strong even when containing absorbed fluid, they are also a *"no-lint"* product. This mean they will not shed any loose fibres. The socks are very flexible which allows them to conveniently mold to any uneven surfaces.

These socks are an excellent product for placing around leaking machinery or in workshop areas to prevent leaks or spills from spreading. These socks are also a key component in any spill kit.

Key Features

- Super Absorbent Foam filler that absorbs and locks in up to 50% more fluid – both water (aqueous) based and oil based fluids
- Super Absorbent Foam wicks fluid faster and does not shed, drip or leak making for greater operational efficiencies in cleaning & disposing

- Will not become slippery even when fully saturated
- Only universal sock that absorbs equally effective for both water & oil based fluids
- Sustainable sorbent filler made from **100% Post Industrial Material!**
- Premium performance
- Ideal for when your application requires greater flexibility and/or absorbency.
- Socks mold around equipment and fit in hard to reach places.
- Great wicking and performance for all of your leaks, drips and spills.

Size

8 cm x 1.2 m (3" x 4')

Suitable for

Recovering both water and oil based fluids

Recommended

Recommended for recovering oil based & water based liquids indoors

Recycled Content

This product is made from recycled fibres
