

18" x 18" Universal Sorbent Pillow

These pillows feature a spun-bond outer surface that is both fast wicking and tough. This pocket of fabric is filled with a next generation absorbent core that will absorb both oil-based and water-based fluids. The absorbent core is secured into the pillow shape at each ends with a stitched seam.

A unique feature of these pillows is their ability to contain large quantities of liquids once absorbed. They are an excellent product for placing under machinery or in workshop areas to prevent leaks or spills from spreading.

Key Features

- Will not become slippery even when fully saturated. Contains no poly-acrylate.
- Strong spun-bond polypropylene outer fabric.
- Features a super absorbent foam core.
- Highly flexible pillow fits in tight spaces.

- Large surface area and absorbent contents soak up larger spills.

Size

46 cm x 46 cm (18" x 18')

Suitable for

Recovering both oil and water based fluids at the same time

Recommended

Recommended for recovering both oil and water indoors
