

3" x 4' HazMat Sorbent Sock

These socks are 1.2 metres in length and eight centimetres in diameter. There are 30 socks in the cardboard box. The socks feature a spun-bond outer sleeve that has a durable heat sealed seam running its entire length. This tube is then filled with Super Absorbent Foam made from 100% post industrial material and absorb both oil-based and water-based fluids equally well. No other sock on the market can make this claim. The absorbent core is secured into the sleeve at each end with a durable metal clip.

Key Features

- Color-coded yellow for safety for working with aggressive chemicals
- Will not become slippery even when fully saturated. Contains no poly-acrylate.
- No lint spun-bond outer sleeve.
