

Switlik CAP 1034 - Survival Ensemble

CAP 1034 Life Vest, Dry Suit and EBS Combination

Working with Capewell Aerial Systems and Aqua Lung America, SWITLIK has integrated the SEA LV2 CA-EBS into the SWITLIK survival ensemble consisting of the [ETSO Pilot and Passenger Suits](#) and the [X-Back MOLLE+ Life Vest](#). Together, the ensemble is approved under ETSO 2C503, ETSO 2C504 and CAP1034 for use in helicopter operations to and from helidecks located in hostile sea areas.

Product Features:

- **ETSO Pilot and Passenger Suits** - World's most comfortable, breathable, lightweight dry suit that is ETSO 2C503-compliant with a unique ergonomic design for increased range of motion during flight. The low slung entry zipper design provides ease of donning, unassisted zipper closure, enhanced comfort, and freedom of movement.
- **X-Back MOLLE+ Air Crew Vest** - The X-Back MOLLE+ vest comes standard with dual lifting straps, permanently attached leg loops, buddy line, TSO-approved hand-held strobe light and MOLLE attachments for customized equipment storage. The MOLLE+ is **ETSO-2c504 approved** and designed to be comfortable in the seated position.
- **SEA LV2 CA-EBS** - Compressed air system to be used as an

emergency air source during an aircraft ditching. The SEA LV2 CA-EBS is lightweight and is designed to be used hands-free.
