

Switlik ETSO - Anti-Exposure Pilot Suit

The Switlik ETSO Pilot Anti-Exposure Dry Suit is designed and approved under ETSO 2C503 for helicopter operations to and from helidecks located in a hostile sea area. Made from a lightweight and breathable tri-laminate Gore-Tex Nomex fabric, and designed to remain watertight in the harshest of environments.

The ETSO suits are standard with waterproof, breathable, stretch socks attached to the suit and complete with a neoprene hood and glove kit. SOLAS Grade Reflective panels on the arms and legs for visibility and pockets for storage.

Product Features

- Unique U-Zip-It low slung entry zipper design provides ease of donning, unassisted zipper closure and freedoms of movement
- Articulated knee, seat and elbow chafe patches are constructed of highly abrasion resistant, heavy duty Nomex®/Kevlar® rip-stop fabric
- Flame resistant shawl collar protects the neck seal while an internal Nomex® neck guard provides added comfort
- Ergonomic patterned design for increased range of motion during flight
- Fully unisex relief zipper for relief without suit removal

- Removable foam knee pads
- Articulated, flame resistant wrist over-cuffs
- Convenient and roomy shoulder, ankle and thigh pockets
- Internal suspender system
- SOLAS Grade Reflective panels On the arms and legs for visibility
- Comes standard with a neoprene hood & glove kit for extra thermal protection
- CWU-75P stretch PTFE breathable laminate waterproof socks installed (Men's flight boot size 4-15 available)
