

SeaWind III

SeaWind III - flexible and ergonomic

Comfortable suit for demanding conditions. Designed with focus on ergonomics, weight and comfort without compromise. SeaWind has been certified according to SOLAS-, ISO- and EASA-requirements (triple certified). As such it has been approved for most any demanding work situation. No other survival suit can claim to be suitable for such a wide range of applications as the SeaWind concept. The suit is approved for work, shipping and helicopter transport. To achieve the helicopter transport approval, the suit is fitted with a thermal lining, and it must be worn with a SeaLion Europe or Halo passenger lifejackets.

Its many details, great flexibility and wide range of applications makes this Norwegian made suit from Hansen Protection the first choice for many occupational groups and professionals, not least for use in the demanding conditions that is part of the service and maintenance of wind turbines and offshore oil & gas installations.
