

# ECOPOOL

## ECOPOOL - Pop-Up Tanks for Instant Spill Containment

These flexible and self-supporting pools are designed to meet your spill containment needs in a variety of environments. Whether dealing with chemical spills, oil leaks, or other liquid emergencies, ECOPOOL ensures rapid and reliable containment without the need for a supporting frame.

### Key Features:

#### 1. Flexibility and Durability:

- Constructed from lightweight and flexible coated fabric.
- Enhanced resistance to a wide range of chemicals and oil types.
- Suitable for rough terrains and demanding conditions.

#### 2. Instant Deployment:

- Ready for use immediately with no assembly required.
- The stiff collar maintains shape without the need for additional

support.

- Perfect for emergency situations where time is critical.

### 3. Transport and Storage:

- Easily folded for convenient transport to various locations.
- Each ECOPOOL comes with its own storage bag for hassle-free organization.

### 4. Versatility:

- Ideal for use in both low and high-temperature environments.
- Customizable sizes available to meet specific containment requirements.

## Product Specifications:

- **Material:** Coated fabric for chemical and oil resistance.
- **Sizes:** Customizable to suit different spill containment needs.
- **Temperature Range:** Suitable for both low and high-temperature conditions.
- **Setup Time:** Instant deployment without the need for additional support.
- **Storage:** Compact folding and storage bag provided for easy transport.

## Applications:

- **Emergency Response Teams:** Quick and efficient containment during emergency spill situations.
- **Industrial Facilities:** Ideal for use in demanding industrial environments.
- **Transportation:** Easily transportable for spill containment on-the-go.
- **Environmental Protection:** Protect ecosystems and water sources from hazardous spills.

## Specifications:

Product name	ECOPOOL 75	ECOPOOL 250	ECOPOOL 400	ECOPOOL 575
Footprint [mm]	740	1220	1310	1490
Total height [mm]	280	370	475	475
Maximum capacity [l]	75	250	400	575
Weight dry [kg]	2	4	5	6
Storage measurements [mm]	725 x 380 x 80	755 x 540 x 130	820 x 610 x 80	1000 x 660 x 130
