

ISPLR - Inflatable Life Raft

- Inflatable Single Place Life Raft

The Switlik ISPLR brings advanced military design and mission-proven durability to a single place life raft available for mariners and pilots who are serious about their personal lifesaving equipment.

- Fully reversible: The unique U-shaped design allows the raft to be fully reversible, allowing quick, easy entry from the water - whichever side is up when it automatically inflates. The ISPLR's low slung floor design allows seating at a slight recline lowering the center of gravity well below the waterline, increasing stability in rough waters.

Product Features:

- Fully Reversible
- Quick and easy boarding
- Low-slung floor design for significantly enhanced seating comfort and stability in water
- Weather-tight canopy protection with viewing window
- Twin zippers, located on either side, to partially or fully close the canopy
- Three layer inflation chamber design for redundancy
- Vacuum packaging available for extended TBO

- Stowage pockets for personal safety items
- Compact bailer and sea anchor included
- Easily transportable between aircraft
- Optional inflatable floor for enhanced thermal protection

Specifications:

Weight: **From 5.4 lbs (2.4kg) to 6.2 lbs(2.8kg)**
Buoyancy: **180 pounds of buoyancy**
Inflation System: **Two 75g CO2 cylinders**
Model: **ISPLR**
