

# FitzWright Mesh SAR Work PFD

## Product Overview:

The FitzWright Mesh SAR Work PFD, also known as the Mesh Deluxe "SAR" Flotation Vest, is a vital piece of safety equipment designed to provide safety, buoyancy, and utility for Search and Rescue (SAR) technicians and Fast Rescue Craft operators. With official approval from Transport Canada/CCG, this PFD is a trusted choice for professionals working in high-stress, water-related situations.

## Key Features:

- **Approval:** Transport Canada/CCG has granted official approval to this PFD, confirming its quality, compliance with safety standards, and suitability for demanding SAR missions.
- **Durable Construction:** Constructed with flexible foam and durable 200 denier nylon, this PFD is designed to withstand the rigors of SAR operations while providing the necessary buoyancy.
- **Comfortable Design:** The soft collar ensures comfort during

extended wear, allowing SAR technicians to focus on their tasks without discomfort.

- **Multiple Cargo Pockets:** This PFD offers multiple cargo pockets, providing ample storage space for essential tools and equipment, ensuring they are easily accessible.
- **D-Rings:** Equipped with two D-rings for small attachments, this PFD enhances the convenience and functionality of SAR missions.
- **Secure Buckles and Belts:** Three 1.5" buckles, two 1.5" encircling belts, a chest strap, and a heavy-duty zipper closure ensure a secure fit and optimal safety.
- **High Visibility:** With 62 square inches of retro-reflective material on both the front and back, this PFD enhances visibility, making SAR technicians easily identifiable even in low-light conditions.

### **Designed for SAR Professionals:**

The FitzWright Mesh SAR Work PFD is designed with the specific needs of SAR technicians and Fast Rescue Craft operators in mind. It offers not only the safety and buoyancy required for these challenging missions but also the utility and convenience necessary for success.

Choose the FitzWright Mesh SAR Work PFD for a professional-grade solution that prioritizes safety, comfort, and utility during high-stakes Search and Rescue missions. With its advanced features and Transport Canada approval, it's the ideal choice for those who work in extreme water-related environments.
